our 45 days trial period**

**Leading the healthcare  
profession to a better  
hygiene standard**

*"Compared to other intra-oral lighting options that I have struggled with over the years the Pro-Lite's rechargeable operating system allows me to travel anywhere in the office. It is extremely light, has three different brightness setting and does not produce heat. Coupled with the innovative on off switch it is pleasure to use and I would recommend it highly."*

**Eric B. Lowenhaupt, D.D.S., Orthodontist Jupiter, Florida**

*"I have thirty years experience with surgical headlamps..... and..... finally, with the Pro-Lite, I have one that works well and is very light and with it's switch, is..... VERY, VERY USER FRIENDLY."*

**Hilt Tatum, Jr, DDS**
